be omitted which could tend to relieve the Pressure occasioned by the present Dearth of Provisions, and to insure a sufficient Supply till the Produce of the

next Harvest can be brought into Ufe.

The Diligence with which your Inquiries have been conducted has afforded you the bell Means of afcertaining the true Circumflances of Our prefent Situation; and the extensive Measures which you have wifely adopted in confequence, for diminishing the Confumption of Grain, and procuring an encreafed Supply, will, I doubt not, be found productive of the most falutary Effect.

Much, however, must depend on the Disposition which will, I am confident, be manifested by all those who have the Means of carrying into Execution My folemn Recommendation and Injunction, iffued at your Defire, for the Adoption of all practicable Economy in the Ufe of those Articles which are necessary to the Subfishence of the poorer Classes

of My Subjects.

The Time fixed for the Commencement of the Union of Great Britain and Ireland will necessarily terminate your Proceedings on this important Subject; but I am perfuaded that the Confideration of it will be resumed with the same Zeal and Temper on the First Meeting of the Parliament of the United Kingdom.

The early Period which I have appointed for that Meeting will afford a fpeedy Opportunity of completing whatever you may have necessarily left unfinished, and of considering what Measures may tend further to alleviate the Pressure on My People, or

to prevent the Danger of its recurring.

Gentlemen of the House of Commons, I thank you for the Readiness with which you have granted the Supplies necessary, under the pre-fent Circumstances, for the Publick Service.

My Lords, and Genilemen,

The Detention of the Property of My Subjects in the Ports of Rusha, contrary to the most folema Treaties, and the Imprisonment of British Sailors in that Country, have excited in Me Sentiments in which you and all My Subjects will, I am fure, participate. I have already taken fuch Steps as this Occasion indispensably required; and it will afford Me great Satisfaction if they prove effectual: But if it shall become necessary to maintain, against any Combination, the Honor and Independence of the British Empire, and those Maritime Rights and Interests on which both Our Prosperity and Our Security must always essentially depend, I entertain no Doubt either of the Success of those Means which, in fuch an Event, I shall be enabled to exert, or of the Determination of My Parliament and My People to afford Me a Support proportioned to the Importance of the Interests which We have to maintain.

Then the Lord Chancellor, by His Majesty's Command, faid;

My Lords, and Gentlemen,
IT is His Maiefly's Command, That the Proclamation declaring His Majefly's most gracious Intention that the Members of Parliament composing this Parliament fould be the Members of the Parliament of the United Kingdom of Great Britain and Ireland, on the Part of Great Britain, and that the faid Parliament fhould be affembled on the 22d Day of January next, be delivered in full Parliament, and now read, which closes the present Session.

M. found ourfelves in Poffession of Five more; this is all they could attempt, as the whole Coasts wire then alarmed, and the Battery of Notre Dame at the Entrance of the River Peners, kept up to brift a Fine as to fend Three Shot through the last Vessel; but the Spirit of our People was such that they were determined to have her out, and luckily only one Man was flightly feratched with a Splinter; on joining the Lurcher in the Morning I found the had got Three more, making nine, the Particulars of which are expressed in the adjoined List; the Four largest are decked, and very capable of going to England, but the others cannot; fince the 7th Mr. Forbes has been continually on the look-out, but not a fingle Veffel, I believe, has flirred fince.

Admiralty-Office, January 17, 1801.

Extrast of a Letter from Captain Rovoley Bulleel, Commander of His Majefty's Ship Belliqueux, to Evan Nepean, Efq; dated at Rio Janeiro, the 24th August 1800.

O'N Monday the 4th Day of August, soon after Daylight, Four Sail were discovered from the Mast-Head in the North West Quarter, and apparently steering about N. by E. At Seven A. M. they hauled their Wind, tacked, and stood towards us, upon which I bore down with the Whole of my Convoy: At Noon the Enemy perceived our Force, (which was greatly exaggerated in their Opinion by the warlike Appearance of the China Ships,) they bore up under a Prefs of Sail, and by Signal separated.

I stood for the largest Ship, and notwithstanding the light and bassiling Winds, we came up with her, and after a few Chace Guns, and a partial Firing for about Ten Minutes, at Half past Five in the Asternoon (Tucsday) she struck her Colours, and proved to be the French Frigate La Concorde, of Forty-four Guns, Eighteen-Pounders, and Four Hundred and Forty-four Men, commanded by Citizen Jean François Landolphe, Capitaine de Vaisfeau, and Chef de Division.

At Seven the fame Evening, the French Frigate La Medée, of Thirty-fix Guns, Twelve-Pounders, and Three Hundred and Fifteen Men, commanded by Citizen Daniel Coudein, fruck her Colours to the Bombay Caftle, Captain John Hamilton, and the Exeter, Captain Henry Meriton.

The above Frigates were of the Squadron which failed from Rochefort the 6th Day of March 1799, and having committed great Depredations on the Coaft of Africa, had refitted in the Rio de la Plata, and were now cruiling on the Coaft of Brazil.

La Franchife, of Forty-two Guns and Three Hundred and Eighty Men, commanded by Citizen Pierre Jurieu, efcaped by throwing a Part of her Guns overboard, and also her Anchors, Boats, and Booms, and by Night coming on; as did also an American Schooner, their Prize, fitted as a Craizer.

On this Occasion I hope their Lordships will permit me to beer Testimony of the Spirit of the Officers and Ship's Company of the Belliqueux; and I have peculiar Pleasure in mentioning the Zeal and Activity I have ever found in Mr. Ebdon, my First Lieutenant, to whom I only do Justice in recommending him to their Lordships' Notice and Favor.

Too much Fraife cannot be given to the Captains, Officers, and Crews of the different Ships under my Convoy, for their ready Obedience to my

Signals, and for the whole of their Conduct on that Day, particularly to Captains Hamilton and Meriton, who very gallantly purfued and captured the aforesaid Frigate, La Medée ; and also to Captain Torin, of the Coutts, and Captain Spens, of the Neptune, who with great Alacrity purfued La Franchefe, although they had not the good Fortune to come up with her, for the Reasons above assigned; and my best Thanks are due to the Whole of the Commanders of the Ships under my Convoy, for their Affiltance in taking a Number of Priloners on board their respective Ships.

We arrived at Rio Janeiro on Tuefday the 12th

of August.

ExtraII of a Letter from Captain Robert Barton, Com-mander of His Maj:fly's Ship Concorde, to Evan Nepean, Ef7; dated at Lifton the 4th Inflant.

During my Stay off the Bar of Oporto I captured the Spanish Privateer Lugger San Josef, alias Larcon, of Six Guns and Forty Men, out from Vigo, and had captured the Speedy Brig, one of our Convoy, and in an Hour more would have captured another, as the was within Hail when we faw her.

Westminster, February 2, 1801.

THIS Day His Majefly came to the House of Peers, and being in His Royal Robes, feated on the Throne with the usual Solemnity. Sir Francis Molyneux, Gentleman Uther of the Dlack Rod, was fent with a Message from His Majesty to the House of Commons, commanding their Attendance in the House of Peers. The Commons being come thither accordingly, His Majesty was pleased to make the following most gracious Speech:

My Lords, and Gentlemen,

At a Crifis fo important to the Interests of My People, I derive great Satisfaction from being enabled, for the first Time, to avail Myself of the Advice and Assistance of the Parliament of My United Kingdom of Great Britain and Treland.

This memorable Æra, distinguished by the Accomplishment of a Measure calculated to augment and confolidate the Strength and Refources of the Empire, and to cement more closely the Interests and Assections of My Subjects, will, I trust, be equally marked by that Vigor, Energy, and Firmnels, which the Circumstances of Our present Situation peculiarly require.

The unfortunate Course of Events on the Continent, and the Consequences which must be expected to result from it, cannot fail to be Matter of Auxiety and Concern to all who have a just Feeling for the Security and Lalependence of Europe.

Your Astoniahment, as will as your Regret, must be excited by the Conduct of these Powers whose Attention, at such a Period, appears to be mere engaged in End-avours to weaken the Nival Force of the British Empire, which has hitherto apposed to powerful an Obsacle to the inordinate Ambition of France, that in concerting the Means of mutual Defence against then common and increasing Danger.

The Representations which I directed to be made are indispensibly req the Court of Petersburgh, in consequence of rity of the Country.

the Outrages committed against the Ships, Property, and Persons of My Subjects, have been treated with the utmost Difrespect; and the Proceedings of which I complained have been aggravated by subsequent Acts of Jujustice and Violence.

Under these Circumstances a Convention has been concluded by that Court with those of Copenhagen and Stockholm, the Object of which, as avowed by One of the Contracting Parties, is to renew their former Engagements for establishing by Force a new Code of Maritime Law, inconsistent with the Rights and hostile to the Inverests of this Country.

In this Situation, I could not hesitate as to the Conduct which it became Me to pursue. I have taken the earliest Measures to repet the Aggressions of this hostile Confederacy, and to support those Principles which are essential to the Maintenance of Our Naval Strength, and which are grounded on the System of Public Law, so long established and recognized in Europe.

I have, at the fame 'Eime, given fuch Affurance as manifelt My Difpolition to renew My antient Relations with those Powers, whenever it can be done confishently with the Henor of My Crown, and with a just Regard to the Safety of My Subjects. You will, I am persuaded, omit nothing on your Part, that can afford Me the most vigorous and effectual Support in My firm Determination to maintain to the utmost, against every Attack, the Maval Rights and the Interests of My Empire.

Gentlemen of the House of Commone,

I have directed the Ellimates for the feveral Branches of the Public Service to be laid before you: Deeply as I lament the continued Necessity of adding to the Burdens of My People, I amperiated you will feel with Me the Importance of providing effectual Means for those Exertions which are indipensibly requisite for the Honor and Security of the Country.

My Lords, and Gentlemen,

I am confident that your Deliberations will be uniformly directed to the great Object of improving the Benefits of that happy Union, which, by the Bleffing of Providence, has now been effected; and of promoting, to the utmost, the Prosperity of every Part of My Dominions.

You will, I doubt not, refume the Enquiries which were fo diligently profecuted in the last Seffion of Parliament, as to the best Means of relieving My Subjects from the Pressure of the present high Price of Provisions; and of preventing, as far as it can be done by human Foresight, the Recurrence of similar Distinctions. In these Endeavours, and in every Measure that can contribute to the Happiness of My People, the great End of all My Wishes, you may be assured of My cordial Concurrence.

You may rely on My availing Myfelf of the earlieft Opportunity which shall afford a Prospect of terminating the present Contest, on Grounds confident with Our Security and Honor, and with the Maintenance of those effential Rights on which Our Naval Strength mult always principally depend.

It will afford Me the truest and most heartfelt Satisfaction whenever the Disposition of Our Enemies shall enable Me thus to restore to the Subjects of My United Kingdom the Blessings of Peace, and thereby confirm and augment those Advantages which result from Our internal Situation, and which, even under all the Dissibilities of War, have carried to so great an Extent the Agriculture, Manufactures, Commerce, and Revenue of the Country.

Admiralty-Office, February 10, 1801.

Extrati of a Letter from the Earl of St. Vincent, K.B. Admiral of the White, &c. to Evan Nepean, Ffq; dated Torbay, the 3d Inflant.

SIR, I IS Majefly's Ship Oifcan is this Inflant ar-Linzee, giving an Account of the Capture of La Dedaigneuse French Frigate.

His Majefty's Ship L'Oifeau, MY LORD, Torbay, Feb. 3, 1801.

Have the Honor to acquaint your Lordship, that on Monday the 26th of January at Eight A. M. in Lat. 45 Peg. North, Long. 12 Deg.

West, I fell in with the French National Frigate | La Dedaigneuse of Thirty-Six Guns and Three Hundred Men, with Difpatches from Cayenne for Roehfort, and chaced her until Noon the following Day; when I discovered His Majesty's Ships Sivius and Amethyst, off Cape Finisterre, whose Captains I directed by Signal to chace, and continued in Purfuit of the Enemy until Two o'Clock on Wednefday Morning, being within Musket Shot, she opened her Fire on the Sirius and Offean, which was immediately returned, and furrendered to the above Ships after an Action of Forty five Minutes, dillant from the Shore, near Cape Belem, about Two Miles; her running Rigging and Sails were cut t Pieces; feveral Men killed and Seventeen wounded. amongst the latter were the Captain and Fifth Lieutenant. My warmest Thanks are due to Captains King and Cooke for their Exertions, but particularly to the former, as from the Sitius's Ready and well-directed Fire, the Enemy received confiderable Damage; the Amethyst, from unfavourable Winds, was unable to get up until she had struck. I am happy to say, notwithstanding the gallant Refistance made by the Dedaigneuse, neither of the Ships loft a Man; the Sirius's Rigging and Sails were a little damaged, her Main-Yard and Bowsprit flightly wounded. I cannot conclude without exprefling my Approbation of the Officers and Company of His Majelty's Ship under my Command, and in Justice to them, must add, their Anxiety to olofe with the Enemy, on first discovering her, was equal to what it was on becoming so superior; and must further beg to acknowledge the very great Assistance I received from Mr. H. Lloyd my First Lieutenant, during a long and anxious Chace of Fortytwo Hours; I trust your Lordship will be pleased to recommend him to the Lords Commissioners of the Admiralty as a most valuable Officer and deferving of their Attention; on his Account most fincerely do I lament the baffling Winds that prevented my bringing the Enemy to Action on the preceding Day, which I was feveral Times in Expectation of doing. La Dedaigneuse is a persect new Frigate, Copper fastened, and sails well, carries Twenty-eight Twelve-Pounders on her Main Deck, and pierced for Forty Guns. I have given the Prize in Charge of my First Lieutenant with Directions to proceed to Plymouth; and have alforto acquaint your Lordship of my having detained, on the 1st Indiant, the Swedish Ship Hosfinung, from Valentia bound to Altona, laden with Brandy, Burthen Two Handred and Sixty Tons.

I have the Honor to be, &c. &c. &c. S. H. LINZEE.

To the KING's Most Excellent Majesty.

The humble Address of the Lord Mayor, Aldermen, and Commons of the City of London, in Common Council affembled.

Most Gracious Sire,

WE your Majefty's most dutiful and loyal Subjects, the Lord Mayor, Aldermen, and Commons of the City of London, in Common Council assembled, approach the Throne with the liveliest Sentiments of Congratulation on the very Important Event of the Legislative Union of your Majesty's Kingdoms of Great Britain and Ireland.

Unthaken as we are, in our firm Allegiance to the best of Kings, we contemplate with peculiar Satisfaction every Circumstance, which, in its Defign or Operation can tend to the Security and Honour of your Majesty's Crown, and thereby to the declared first Object of your Majesty's Heart-the

Welfare and Profperity of your People.

The Accomplishment of this great Measure, founded in Wifdom, and demonstrative of that pater. nal Regard which your Majelty has ever evinced for every Class of your Subjects, the Union of the Two Kingdoms, particularly affords, at this momentous Crisis of public Affairs, the gratifying Prospect of confolidating the joint Intereits, Energy, and Refources of the Empire, and of confirming, by a mutual Participation of the peculiar Bleffings of each, the Prosperity and Happiness of both King-

Long may your Majelly wear the Diadem, which, through unexampled Difficulties, has maintained its Dignity and preferved its Lustre; and long may the Subjects of your United Empire, with one Heart and one Voice confess with Gratitude the Loyalty and Veneration due to a Sovereign whose Honour must be their Pride, and on whose Security is engrafted their immediate Welfare; and may the most complete Success under Providence crown their. Determinations to fubdue your Majefly's Enemies, wherever they may be found.

Signed by Order of Court, WILLIAM RIX.

To which Address His Majesty was pleased to return the following most gracious Answer:

Thank you for this dutiful and loyal Address, and I for your warm Congratulations on the Union of the Two Kingdoms of Great Britain and Iceland, an Event which, I truft, cannot fail, under the Bleffing of Providence, to augment and perfetuate the Welfare and

Trovacante, to anyment and perfettante the Weifare and Happinels of all My People.

Your affectionate Expressions of Attachment to My Perfon and Government, and your sleady Determination to maintain against every Aggression the Security and Honor of My Crown, are highly acceptable to Me, and secure to My faithful City of London My constant Farmer and Part 25.

They were all received very graciously, and had the Honor to kifs His Majeky's Fland,

St. James's, February 11, 1801.

HE following Address having been trans-mitted to the Duke of Portland, His Majesty's Principal Secretary of State for the Home Department, has been by his Grace prefented to the King; which Address His Majesty was pleased to receive very graciously:

To the KING's Most Excellent Majesty.

The humble Address of the several Warranted Lodges of the Most Ancient and Honorable Fraternity of Free and Accepted Masons according to the Old Institutions, in the Island of Barbadoes

WE, your Majesty's most dutiful and loyal Sub-jects, the Malters, Wardens, and Brethren of the several Warranted Lodges undermentioned of Free and Accepted Masons, according to the Old Institutions, in the Island of Barbadoes, most humbly request Permission to offer, at the Foot of your Throne, the warmest Congratulations of our Hearts on your providential Deliverance from the late atrocious Attempt on your most facred and invaluable Life. When we reflect on the Perils to which your Majesty has from Time to Time been which your majety has from Fine to Fine occur exposed, our Minds are filled with Gratitude to Heaven for your almost miraculous Preservation from them: We felicitate ourselves on being Subjects of a King whom the Almighty appears to have taken, in a fpecial Manner, under his Divine Protection; and through whose Virtues we there-fore hope that, amidst the Convolsions which agitate furrounding Nations, the British Throne and Government may still remain unshaken, and transmit to diflant Ages the Bleffings which your Majelly's Subjects enjoy above all other People in the World. We are happy in finding that the Wifdom of Par-liament has left to Lodges of real Free Mafons the Liberty of continuing to meet, whilst, at the same Time, it has thought proper to guard againd the Abuses which might possibly be committed by false Pretenders to that Name assembling, without having ever been acknowledged as Free Mafons, much less authorifed to act as such by a Grand Lodge :- for we most humbly beg Leave to affure your Majesty, that genuine Free Masons cannot, in their Lodges, confpire against the State, they having from Time immemorial been frictly charged never to fuffer any political Disquisition in a Lodge, but, as Masen., always to be peaceable Subjects of the Government

under which they live. That the Supreme Disposer of all Events may be graciously pleased to grant t your Majetly a long Continuance of Life and Health, together with the Further Blessing, that the Years yet to come of your most auspicious Reign may be attended with that Tranquility, of which, from foreign and civil Commotions, too many of the past lawe unhappily been deprived, is our fincere Wish and servent Prayer.

Signed, by Define of the respective Lodges undermentioned, at the Temple in Bridge-Town, the 48th Day of October 1800, and in the Year of Masoury 5800.

Have the Pleasure to inform you, that on my Passage from Ternate to the Streights of Banca, I Yesterday discovered two Sail off Tagolanda, which I chased at One P. M., at Three it fell calm, all the Boats were hoisted out to tow the Ship, and every Exertion made to get up with them. On a Breeze fpringing up at Five o'Clock, we cast off all our Boats, but was not able to get alongfide of them until a Quarter before Nine o'Clock, when we brought them to a close Action on each Bow, which continued about a Quarter of an Hour, when they both struck their Colours. They proved the Zee-vraght and Zeelast, the one a Brig and the other a large Panchallang, each mounting Twenty-two Guns, of different Calibres, from Macaffar, leaded with Rice, Powder, Shot, Gun Carriages, and Stores from Ternate. The Vessels both belong to the Dutch East India Company.

During the Action 1 loft One of my best Seamen,

Extraîl of a Letter from Captain E. O. Osborne, of His Majesly's Ship Arrogant, to Vice-Admiral Rainier, Commander in Chief, Sc. Sc. dated on board His Majesly's Ship Arrogant, at Sea, the 26th of June 1800.

THE Difficulty of getting Water at Anjer Point, induced me to proceed to Mew Bay, where I arrived with the Orpheus, the 5th May. The 7th of May we captured a finall Ship, from the Isle of France, in Ballath, which was burnt.

May 16th, failed with the Arrogant and Orpheus, from Mew Bay, and paffing to the Northward of the Islands off Batavia, made the Land of Java, 16th May, near Point Indramago, and having Bumpkin Island in Sight at the fame Time to the Eastward of Batavia; the fame Day discovered a large Ship and a Brig at Anchor, to whom we gave Chase; and who, after having made some Siguals to each other, made all Sail from us in for the Land. It was late in the Evening before we got near them, when discovered the Ship to be a Vessel of Force, and having feveral Guns on her lower Deck, and the Brig also mounting fourteen Guns; finding they could not Escape us, they both ran on Shore, at some Miles distant from each other, to the Westward of Point Indramago. We were soon within random Shot of the Ship, and anchored as near her as the Depth of Water would admit, when the began firing at us, which was returned by feveral Guns from each Deck. About this Time two Boats were observed going from her full of Men; and as it grew dark shortly after, some of our Boats were fent to prevent the Crew of the Ship from landing, and to fummons her to furrender, which they could not do till the Morning; this I conclude was with the Defign of destroying her, if they could have accomplished landing the Crew in the Night, but the Vigilance of our Boats prevented this taking Place, as her Boats were taken full of Men the first Time the Attempt was made. At Day break the furrendered, and was taken Poffeshon of, when we found her to be the Hertzoy de Brunswick (Armed Ship), belonging to the Dutch East India Company, Jan Cornelius I a me, Com-mander, mounting twenty Guns on the upper Decks, and Eight Guns on the lower Deck, and manned with Three Hundred and Twenty Men, Part of whom had made their Escape on Shore.

At the Time the Boats were fent to prevent the Men from landing from the Ship, other Boats were fent under the Direction of Lieutenant Blayney, to board the Brig, which was fome Miles distant from us. This Service he accomplished without Lofs, and foon after brought her near us, when we found her to be the Dolphin Armed Brig, commanded by Jan Vauntyes, belonging to the Dutch East India Company, mounting Fourteen Guns, and having on board Sixty-five Men.

May 24th, at Day-break in the Morning, we captured, clofe under the Land, a fmall Armed Brig of Six Carriage Guns, and forne Swivels, on a Cruixe from Sumarang, which Place she had left the preceding Day.

On the Evening of the 25th we got Sight of Japura, and the Ship at Anchor there; but it fell little Wind, and we were obliged to anchor at the Distance of Ten or Eleven Miles from it; as they had observed us from the Shore, I thought no Time was to be lost, and therefore at Eight P. M. fent all the Boats, well manned and armed, with Lieutenant Blayney Rice, who got to the Ship about Midnight; and though she had been hauled close to the Shore, (on seeing us in the Evening,) under a small Battery, yet the Surprise was complete, and she was boarded without any Loss, many of the Crew jumping overboard at the Time.

The Battery fired on them so soon as they disco-

The Battery fired on them so soon as they discovered her to be in our Possession; but though some of the Boats' Oars were broke by the Shot, no other Accident happened, and they effected getting her out before Daylight, when she joined us, and we found her to be the Dutch East India Company's Ship Underneming, mounting Six Carriage Guns, and having Eighty Men on board. After putting the

Prize in order,

May 28th, joined the Orpheus off Cheribon, and found that in our Abfence she had captured a Dutch Brig, a Sloop, and Two Prows; the Three latter were destroyed. Same Day run into the Anchorage to the Westward of Point Indramago, where we landed most of the Prisoners; some of them being very sickly.

The Dolphin Brig is a new Veffel well copperced, and equipped, and well adapted for Service, (particularly in Shoal Water,) the mounts Fourteen Guns, and has good Room and Security at

Quarters.

A true Extract, (Signed) J. HOSEASON, Pro Sec.

Arrogant, Madras Roads, A.M.
August 11, 1800.

Have the Pleafure to acquaint yon, that on the Morning of the 4th August, being in Sight of Point Div, we discovered Two Ships in the M. E. and a Brig E. by S., to the former we gave Chace, and about Noon we were fufficiently near to see that One of them was a small Frigate with a Tier of Guns, and the other a Merchant Ship, both under English Colours. At Three Quarters past Two P. M. we had neared the Chace considerably, when she began throwing her Guns, Boats, and other heavy Articles overboard. At Four P. M. the Shot from our chace Guns went over her, when she hauled the English Ensign down, and hoisted French National Colours, fired her Stern Chaces Two or Three Times at us, and then struck. She proved to be L'Uni French Privateer, of Thirty Guns, Eighteen and Nine Pounders, all of which were thrown overhoard, during the Chace, except Two Eighteen Pounders, Two Nine-Pounders, and Two Carronades; she was commanded by Jean François Hodoul, and had a Crew of Two Hundred and Fifty Men, on her leaving the Mauritius on her present Cruize; but had on board only Two Hundred and Sixteen Men, when captured, having put the Rest into Prizes; ou taking Possession.

the other Ship, was the Friendship, (English Merchantman,) from Bengal bound to Madras, and that the Brig was the Bee, from Madras bound to Masu-lipatam, both of which Vessels, had been captured by her in the Morning: we made Sail after the Ship, which we recaptured at Ten at Night, but the

Bulg made her Efcape.
1.'Uni left the Mauritius' the 4th May, and had captured the English Privateer Harriot from the Cape of Good Hope, the Helen belonging to

Bombay, and the Ship and Brig before mentioned.

The Arrogant, with L'Uni Prize, anchored in this Road laft Night at Nine o'Clock, and recaptured Ship Friendship I expect shortly, as she fails tolerably well, and I only parted with her Two

Days ago.

I have the Honor to be, &c.

About Fifty Leagues to the Eastward of Aden, I fell in with and took the Clariffa, French Privateer, from the Mauritius, who threw over her Guns, and cut away her Anchors with a View to escape; we found One Hundred and Forty-eight Men on board her; she is only between Two or Three Years old, built at Nantz.

LETTER, of which the following is an Extract, has been received by the Right Honorable Henry Dundas, One of His Majelty's Principal Secretaries of State, from Licutenant Colonel Frazer, Commandant of the Garrison of Gorce, on the Coast of Africa, dated off Senegal, 5th January 1801.

ON the 3d Inflant, the Weather being very favourable, and the Surf unufually low, it was determined by Sir Charles Hamilton and myfelf to attack an Armed Brig and Schooner laying at

Anchor in the River.

The Party dellined for this Service, confifting of Fifty-five Volonteers from the Melpomene, under the Command of Lientenant Dick, Five from the Crew of the Transport, and Thirty fix, commanded by Lieutenant Chrislie, from the African Corps, left the Frigate at Half past Nine o'Clock in Five Boats, and having passed the Bar without Accident, and the Batteries at the Point without being difcovered, arrived at a Quarter before Eleven o'Clock within a few Yards of the Brig, when the Enemy commenced a very licary Fire, through which our People hoarded, and, after a levere Contell, which lafted Twenty Minutes, carried the Veffel.

It appears the was called the Senegal, commanded

by M. Renou, mounted Eighteen Gans, with about Sixty Men, Eighteen of whom are Pril mers.

Two of the belt Boats having been dethroyed by the Enemy's Shot, Lieutenant Dick judged it better to turn the Guns of the Brig upon the Schooner than to attempt boarding her, and kept up a well-directed Fire for fome Time; but the was fo well protected by the Batteries on Shore, and by fmall Arms from the Southern Bank, that he found it necellary to defilt; and cutting the Brig's Cable, made Sail with her down the River.

After Two Hours Possession she unfortunately grounded, and he was obliged to relinquish his Prize, after rendering her unfit for further Service.

The Retreat was conducted with the greatest Order, and the Whole of the Priloner, and Wounded brought off notwithflanding the Surf upon the Bar, and under a Fire of Grape and finall Arms from the adjoining Batteries.

I enclose a Return of the Killed and Wound ! *, and have to regret the Lots of Two very gillont Officers, Lieutenants Palmer of the Navy, and Vivion of the Marines.

Copy of a Letter from Sir Charles Hamilton, Bart.
Captain of His Majefly's Ship Melpomene, to Evan
Nepeum, Efg; dated at Gorce, 8th January 1801.

TOU will be pleased to inform their Lordhips, that, being off the Bar of Senegal, on the 3d Instant, the Weather moderate, and the Surf low, with the Concurrence of Colonel Frazier, I conceived it possible, if we could surprise a Brig Corerived it pointies, it we could tarpine a Drig Converte and an Armed Schooner, anchored within the Bar, to poffels ourfelves of the Fattery commanling the Entrance, and, by the Means of their own Veffels, as I had none under my Command fit for the Purpofe, to have finally reduced Senegal; I the Parpofe, to have finally reduced Senegal; I therefore detached Lieutenast Dick, with Ninery-fiv Olivers and Men from the M lymens, and African Cops, in Five Beats, ed.; left the Ship at Nine P. M. were fritunate enough to pus the heavy Surf on the Bar with the flood Tide without Accident, and unobserved by the Point Ballery; but on their approaching within half of the Brig the Alarm was given, and the Two Bow Guns dicharged, by which Lieutenaut Palver, with Scen Seamen, were killed, and Two Boyts fuck. Netwithdowlibes this metators are the Brigans. withflanding this unfortunate Act lent, the Brig was carried after an oblimate D fence of Twenty Mi-nutes, but which gave the S hooner Time to cut her Cable :- Lie tenant Dick finding that the Lots of his Two best Boats, and many of his best Men, added to a conftant Fire from the Schooner and Two Batteries, mud have rendered auf far-ther Attempt aportive, he judged it fight to make every Attempt to get her over the Bar, but the Ebb Tide having ande, and being totally, undequainted with the Navigation of the River, the got a-ground; and feeing it impossible ever to get her off, and being hulled by every Shot from the Point Battery, he found it absolutely necessary to retreat; and, under the many Obliacles he had to hermount acrofs a tremendous Surf, under a heavy

Fire of Grape and Musketry, excites my Admiration even more, if posible, than the gallant Manner in which the Brig was carried; I therefore feel it my Duty to recommend Lientenant Dick to their Lordships' Notice, who fpeaks highly of the Officers and Men employed under him, both from this Ship and the African Corps; and we had the Sa-Ship and the African Cops, and had fank tisfaction at Daylight to perceive the Brig had funk up to her Gunwales in a quick Sand. It appears fine was called the Senegal; had been fitted out there at the Expence of the Republic; and was commanded by Citizen Renou, who was on board at the Time, and of whose Fate we are uncertain; the mounted Eighteen Guns, Twelve and Nine-Pounders, and had nearly Sixty Men on board, fome of which efcaped in a Boat, the Rest were killed in boarding, except Five Whites and Thirteen Blacks, who are now on board this Ship. was chiefly owing to the Alaerity and Courage of the latter that we met such Refistance. Enclosed I have the Honor to transmit a List of Killed and I remain, Sir, &c. &c. &c. Wounded. C. HAMILTON. Signed
